**Subject:** Microsoft Settlement

Dear Ladies and Gentlemen:

I like to sleep well at night knowing that I live in a country which creates rulings and laws which are fair to all involved. I think this country has been through enough with all the recent events especially the September 11th crisis. Please settle the Microsoft Case so we can all get a good night's sleep. I think this company has made a fair offering which will benefit everyone. In my experiences with life, I've learned that you just can not please everyone. So, if the majority of states accept the Microsoft proposal, go with it. Thank you. P. G. Watts mswatts@hal-pc.org
